

Health Tracker

Managing Employee Wellness and Organisational Health

Scale your COVID-19 response with an end-to-end organisational solution

We are not ready for the peak because:

COMMON BUSINESS CONCERNS

- We are not covering all of our employees meticulously
- Time at the entrance is time consuming for employees and COVID tracking-and-reporting staff
- Our process is manual and cannot be scaled
- Our data comes from multiple sources and it is difficult to consolidate
- Our reporting is difficult to manage as the number of cases and incidents grow

Health Tracker has 7 key functions & features that address your organisations needs

DAILY CHECK-IN

Daily employee check in to cover health status and compliance protocols

QUARANTINE MANAGEMENT

Tracks employee health care through constant updates

REGISTRATION

Robust and seamless assessment of employee status and current risk profile

WORKPLACE

Assessing hygiene requirements at the physical workplace

EMPLOYEE ASSISTANCE

Dynamic employee assistance tracking and responses

COMMUNICATION

Publish and monitor communication to whole team, parties, or specific groups
